EDUCATION

Sam Houston State University

Master of Science in Computing and Data Science

Huntsville, TX

Aug. 2024 – Present

Sam Houston State University

Bachelor of Science in Computer Science

Huntsville, TX

Aug. 2019 – May 2024

EXPERIENCE

Cybersecurity Engineering Intern

DoD — Advanced Course in Engineering (ACE) at the Griffiss Institute

May 2024 – Aug. 2024

Rome, NY

- Exercised principles of **cyber warfare** in rigorous 56-hour multi-domain exercise, planning and executing **cyber, kinetic, and information operations**
- Led team of operators against adversarial nation-state in simulated cyber warfare operations
- Developed solutions in **IoT Security, Red Team Operations, Reverse Engineering, and Cryptography**
- Wrote seven 20+ page IEEE research papers documenting solutions

Vulnerability Research Intern

Forward Edge AI | Sam Houston State University

Sep 2023 – Feb. 2024

Huntsville, TX

- Conducted vulnerability research on proprietary hardware
- Analyzed network traffic produced by two custom cryptographic protocols to form cryptanalysis techniques
- Documented potential attack vectors for future research and exploit development on built-in security solutions

Mathematics Tutor

Sam Houston State University

Jan. 2021 – Sep. 2023

Huntsville, TX

- Courses: Calculus 1 & 2, Trigonometry, Discrete Mathematics, Pre-Calculus, Algebra 1 & 2
- Prioritized fostering a friendly, psychologically-safe environment to enhance learning
- Over **50% of my students** passed their math courses with a grade of A or higher
- Completed over 550 appointments with over 300 unique students

TECHNICAL SKILLS

Certifications: eJPT, OSCP (in-progress), CompTIA Security+ (in-progress)

Languages: Python, Bash **Scripting**, Golang, Java, C, SQL (MySQL/MariaDB)

Tools: Wireshark, Burp Suite, Sliver C2, Docker, VMware, VirtualBox, Gitlab CI/CD

EXTRACURRICULARS

BA\$H | *Bearkat Association of Security and Hacking* — Security Lecturer

Aug. 2024 - Present

- Contribute to the cybersecurity community at Sam Houston State University by educating members on advanced security concepts
- Deliver lectures on web exploitation, tool development, penetration testing techniques, and more

CCDC | *Collegiate Cyber Defense Competition* | Regionals

Mar. 2024 & 2025

- Defended corporate infrastructure against 20+ professional red teamers, and maintained service availability
- Ensured completion of critical business-oriented tasks delivered by C-suite of simulated corporation
- Gained direct experience performing system administration tasks, blue team operations, and managing services

CPTC | *Collegiate Penetration Testing Competition*

Nov. 2024

- Conducted network penetration test on simulated corporate network with production and development subnets
- Collaborated with team of six to write a **penetration testing report** documenting our findings
- Utilized Metasploit Framework and Sliver C2 Framework

Capture the Flag (CTF) Competitions | CTF Competitor

Aug. 2023 - Present

- HackTheBox Labs
- Competed in CTF events across platforms including HackTheBox, pwn.college, CryptoHack, PicoCTF, MetaCTF, and Bandit Wargames
